

Bottles, soda glass, Boston round

46

- Narrow mouth, ideal for solvents, chemicals and sample storage
- Available in clear and amber
- Custom cleaned containers and caps are non-certified pre-cleaned, for visible particulates using deionised water. No documentation attached
- Certified low particulate pre-cleaned containers and caps are cleaned to 0.5µm of five particles or less per mL with WFI in a class 100/10 cleanroom. Certificate of analysis is attached
- Safety coated bottles are ideal for field sampling applications

The shatter resistant coating reduces the chance of breakage. If the bottle does break, the coating will safely contain the contents long enough for disposal. The non-slip coating also allows greater ease of stability in handling containers, whether wet or dry. All bottles are packed with caps attached.

General use, with polyvinyl lined cap, clear
