Bottles, soda glass, wide mouth packers

46

Ideal for storage of dry powders.

- Wide mouth bottles allow for easy accessibility for removal of contents
- Available in clear and amber

Custom cleaned containers and caps are non-certified pre-cleaned, for visible particulates using deionised water. No documentation attached.

Certified cleaned, containers are cleaned as per EPA guidelines for semi-volatiles, pesticides, PCB's and metals. A certificate of analysis is attached to each lot.

Safety coated bottles are ideal for field sampling applications. The shatter resistant coating reduces the chance of breakage in the event the container is dropped. If the bottle does break, the coating will safely contain the contents long enough for disposal. The non-slip bottles are packed with caps attached.

General use, with polyvinyl lined cap, clear
